TO HELP OUR STUDENT STARS
REACH NEW HEIGHTS!

Definition of Constellation:

con-stel-la-tion

/känstəläSH(ə)n/

A group of stars forming a recognizable pattern that is traditionally named after its apparent form or identified with a mythological figure. A group of associated or similar people or things.

Hydra Partner: **\$10,000**

Orion Partner: **\$5,000**

Pegasus Partner: **\$3,000**

Crux Partner: **\$1,500**

Phoenix Partner: **\$500**

Hydra Partner: \$10,000

Hydra is the largest of all 88 constellations consisting of 17 main stars. In Latin, Hydra means “Sea Serpent.”

- Sponsor 25 students to participate in the Junior Engineers Tomorrow’s Scientists (JETS) Program
- Sponsor 25 students to participate in the Math Enrichment Program (MEP)
- Billboard 6-month recognition on the CABPES website
- Tailored virtual presentation to your company on the state of STEM education and the future of STEM
- Video interview about our partnership
- Feature in a CABPES quarterly newsletter
- Special Recognition on the CABPES Facebook page

Hydra

Orion Partner: \$5,000

Orion is one of the most recognizable constellations in the night sky and contains two of the ten brightest stars in the sky.

- Sponsor 20 students to participate in the Junior Engineers Tomorrow’s Scientists (JETS) Program
- Sponsor 20 students to participate in the Math Enrichment Program (MEP)
- Billboard 3-month recognition on the CABPES website
- Acknowledgment featuring your company mission, logo and link to your company website in a CABPES quarterly newsletter
- Recognition on the CABPES Facebook page

Orion

Pegasus Partner: \$3,000

Pegasus is a symbol of high-flying imagination, In Latin, Pegasus means “The Winged Horse.”

- Sponsor 15 students to participate in the Junior Engineers Tomorrow’s Scientists (JETS) Program
- Sponsor 15 students to participate in the Math Enrichment Program (MEP)
- Acknowledgment featuring your company mission, logo and link to your company website in a CABPES quarterly newsletter
- Recognition on the CABPES Facebook page

Pegasus

Crux Partner: \$1,500

Crux, or The Southern Cross, is one of the best-known constellations in the Southern hemisphere and is a famous constellation in many cultures.

- Sponsor 10 students to participate in the Junior Engineers Tomorrow’s Scientists (JETS) Program
- Inclusion of your company’s logo in the CABPES quarterly newsletter
- Recognition on the CABPES Facebook page

Crux

Phoenix Partner: \$500

The Phoenix constellation is named after the legendary bird that rose from its own ashes, symbolizing strength and renewal.

- Sponsor 5 students to participate in the Junior Engineers Tomorrow’s Scientists (JETS) Program
- Acknowledgment in the CABPES quarterly newsletter
- Recognition on the CABPES Facebook page

Phoenix

JOIN US IN OUR MISSION

The Colorado Association of Black Professional Engineers and Scientists (CABPES) is a non-profit organization dedicated to encouraging African Americans and underrepresented youth to pursue science, technology, engineering and math (STEM) careers and we have been dedicated to this goal since 1980. In the past 40 years, CABPES has introduced STEM concepts through our after-school programs to 6,000 students. We are currently wrapping up our pilot version of our new virtual programs and planning for virtual programming and teaching this Fall. This virtual version of our long-standing Junior Engineers Tomorrow's Scientists (JETS) and our Math Enrichment Program (MEP) include live classes taught by professional engineers and scientists. In addition, there is interactive guided instruction of the program's curriculum for students in 5th-12th grades.

Many of these students do not receive exposure to STEM education and the opportunities to learn in a project-oriented, comprehensive and hands-on learning environment outside of their time with CABPES. After a year in CABPES JETS and MEP programs, students record a noticeable improvement in their academics, their self-confidence, and their self-awareness. The success of our organization and our outreach is dependent upon the financial support of corporations and private sponsors.

We would like to ask that you consider becoming one of our Corporate Sponsors. As a sponsor, you will not only be supporting underrepresented minority participation in the increasingly important STEM industries, but you will also be supporting the growth and expansion of a non-profit run by Black leadership. At CABPES, we believe that each of our students is a bright star, and together our students will play an essential role in creating a more diverse STEM industry.
